

Steven Juliani

GROOVE

2017

for bass trombone and tuba

for study only

Version: 12/16/18

Duration: ca. 4 minutes

In this piece I was drawn to the role that the bass plays in a jazz or rock band - laying down the groove. So here we have two instruments playing grooves, together and apart, interspersed with sections of melodic material that show off their singing qualities.

-Steven Juliani

for study only
